STUDENT PROGRESS REPORT

Overleaf please find the progress report for the stated student, if you are concerned about the validity of the document or any of the details shown; please contact the Registry of the University at the address shown below.

Credit Level

Credit is awarded to a learner in the recognition of the achievement of the designated learning outcomes at a specific level and the level is an indicator of the relative complexity of learning. Credit values indicate the amount of learning expected and are assessed in UK value (CATS), however, these can be assimilated to ECTS, the European Credit Transfer and Accumulation system by dividing the CATS value by two.

Undergraduate – Each year is normally to 120 CATS, year 1 is at a level 4, year 2 level 5, year 3 level 6 and year 4 (where appropriate) level 7.
Postgraduate Masters Degrees are normally 180 CATS at level 6/7 with at least 120 CATS at level 7.

Classification

Undergraduate – (pre 2010 student intake) classification is based on the marks from years 2 and 3 (plus 4 where appropriate) and reflects the individual's performance across the whole degree Programme. All marks are calculated based on a 100% point scale. The calculation of classification does vary slightly between programmes although the basic calculation is that half of the marks attained are in particular class and the average mark calculated from all contributing mark is no more than 2% below the class boundary.

Undergraduate – (2011 entry onwards) classification is based on the marks from years 2 and 3 (plus 4 where appropriate) and reflects the individual's performance across the whole degree programme.
All marks are calculated on a 24 point scale. The calculation of the classification does vary slightly between programmes although the basic calculation is based on the students overall average aggregation score.

Postgraduate – Classification reflects the individual's performance across the whole degree programme. All marks are calculated based on a 100% point scale.
